Shots

B12 INJECTION ONLY *MEMBER PRICE \$20 & NON-MEMBER \$25

Aids in the production of red blood cells and assists with fat and protein metabolism.
Increases brain function and gives you a boost of energy!

LIPOPLUS INJECTION ONLY *MEMBER PRICE \$40 & NON-MEMBER \$45

MIC (Methionine, Inositol, and Choline)- breaks down sugars, carbs, and fat to help convert into energy.
Combined with B6 which promotes energy, healthy nerve cells, and red blood cell production.
Good for PCOS in women as well for hair growth, regulation of menstrual cycles, and weight loss.

TRI-IMMUNE ONLY *MEMBER PRICE \$20 & NON-MEMBER \$25

Immune support via antioxidants with healing properties while protecting the body from free radical damage and aids in liver function

FAT BURN *MEMBER PRICE \$50 & NON-MEMBER \$55

The injection combines vitamin B12 and Lipoplus, a blend of lipotropic agents that aid in fat metabolism, promoting the body's natural fat-burning processes. This is often utilized in weight loss programs to boost energy levels, improve fat utilization, and support healthy metabolic activity.

MEGA BOOST & BURN *MEMBER PRICE \$70 & NON-MEMBER \$75

The injection is a powerful formula that combines B12, Lipoplus, and carnitine to enhance fat metabolism and energy levels. This synergistic combination assists individuals in achieving their weight loss goals by boosting metabolism and energy utilization.

IMMUNE BOOSTER COMBO *MEMBER PRICE \$40 & NON-MEMBER \$45

The immune booster injection combines vitamin B12 and Tri-Immune, a powerful blend designed to enhance your body's natural defenses. This injection is ideal for individuals seeking to bolster their immunity, improve energy levels, and promote overall well-being, especially during periods of stress or increased susceptibility to illness.

IV Ingredients

AMINO BLEND

Can boost metabolism, improve energy levels, increase endurance, and help burn fat!

ASCORBIC ACID (VITAMIN C)

Necessary for growth and repair of all tissues by forming collagen. Aids in iron absorption. Enhances function of the immune system. Maintains integrity of bones, cartilage and teeth. Necessary for wound healing. Forms important proteins to build blood vessels, skin, and tendons.

B-COMPLEX (B1, B2, B3, B5, B6)

B vitamins are important for cell function. They help the body convert food into fuel, this results in more energy and better metabolism. Maintains healthy cells, therefore body tissues. Also great for digestion, skin, and nerves. B vitamins are usually the first to deplete when dehydrated, so great for hangovers!

BIOTIN

Improves keratin for healthier hair, skin, and nails.
Breaks down fat and carbs, and increases metabolism

GLUTAMINE

Vital for GI health, promotes glucose uptake after workouts, may curb sugar cravings, reduce lactic acid buildup with exercise, and aids in muscle recovery.

L-CARNITINE

Potent fat burner. Enhances athletic performance and a HUGE energy boost.

L-LYSINE

Essential amino acid, important for muscle growth. Protects against and treats cold sores. May block stress receptors, supports healthy bones with improves calcium absorption. Helps form collagen for skin health/wound healing.

LIPOPLUS

IC (Methionine, Inositol, and Choline)- breaks down sugars, carbs, and fat to help convert into energy. Combined with B6 which promotes energy, healthy nerve cells, and red blood cell production.

Good for PCOS in women as well for hair growth, regulation of menstrual cycles, and weight loss.

MAGNESIUM

Assists in protein synthesis, controlling blood sugar. Aids to regulate and lower blood pressure. Helps with stress management and muscle spasm relief. Used to prevent and relieve active migraines and improve relaxation and sleep.

METHYL-B12

Aids in the production of red blood cells and assists with fat and protein metabolism. Increases brain function and gives you a boost of energy!

PROLINE

Aids in the healing of bones and joints.
Main ingredients of collagen production for skin and connective tissue.

NAC

Improves immune function, helps detox the kidneys and liver, may reduce heart disease risk by preventing oxidative damage, boosts brain health, assists with male and female fertility, and can stabilize blood sugar by decreasing inflammation in fat cells

TRACE MINERALS

Zinc, copper, magnesium, manganese. This blend improves immune function and helps your body absorb nutrients. This also keeps you hydrated longer.

PYRIDOXINE (B6)

Plays a role in cognitive development, involved in metabolism, assists with immune function and hemoglobin formation

TAURINE

Amino acid with antioxidant properties. Good for cardiovascular health, athletic performance and muscle recovery. Can improve mental clarity and acuity and overall mental performance.

TRI-IMMUNE

A mix of zinc, glutathione, and ascorbic acid- immune support via antioxidants with healing properties. Protects the body from free radical damage and aids in liver function
